---

August 22, 2011

To Whom It May Concern:

I examined 10 geckos of various ages and sizes belonging to Jeff Otterberg. Mr. Otterberg indicated that he had received these as a shipment less than 24 hours prior to presentation. Three of the geckos had evidence of limb fractures. Two geckos had evidence of joint effusion. One gecko was dead on presentation. Possible causes include metabolic bone disease, shipping damage, congenital deformities and sepsis.

Sincerely,

A handwritten signature in black ink that reads "Melissa A. Garner, DVM". The signature is written in a cursive, flowing style.

Melissa A Garner, DVM
