**Medication Reminder Dates:**

On 4/22/06, I examined 2 ball pythons - owned by Robert ~~England~~ England. The female had a normal physical exam - weighed 190 grams and had glaucoma on her front eye. She was treated w/ metronidazole / Panacur. The male had several pustules, scabs, and blisters on ~~his~~ his dorsum, ventrum and head. I diagnosed him with bacterial conjunctivitis / blister disease. He was treated with Baytril and metronidazole / Panacur.
