.....,

The fact that you are not picking up the phone and not replying to our e-mails is not a way out of this situation. Believe us, it doesn't worth to act like this.

You are forcing us to believe that we've made big mistake shipping to you without an advance payment and believing you will pay 30% upon arrival of the shipment and the rest within 10 days after the arrival. Probably it was also a mistake that we trusted you and reduced the invoice amount counting on your "honesty".

It's really unbelievable that you are acting just like the "scammers" from Tanzania you were complaining about. By only this reason we've decided to compromise with our conditions and prove that not all the exporters from Tanzania are cheaters. What an irony anyway!

We know you've sold the animals we've shipped to you despite of what you were constantly assuring us in your e-mails.

We also know you are trying to buy more venomous snakes from Tanzania using the same scheme with no advance payment- interesting why if you didn't sell the old ones yet?!

If you are trying to recover your losses by cheating people who have been honest with you it's a shame.

According to the delay in your payment (we still hope it's a delay!!!) we've cancelled plenty of orders from US which were asking for 50% advance payment + shipping cost and the rest 50% upon arrival. Currently we are explaining that this is temporary because of the payment problems we have with an US customer. Further we intend to forward this people to you for explanations.

Hope this really correspond with the truth!

Maria

Hi,

I tried to call you, but I couldn't reach you again. Your mobile is out of service and nobody is picking up on your home/office number.

Pls let us know what happened with our payment? You've promised payment in February.

Regards,

Maria

Dear,

I believe we've given you quite a long time and were patient enough not to disturb you during this time, but now we really need our money. Pls let us know when (we need a deadline date) you will transfer the amount due ie. 10027.20 USD including transportation cost?

Regards,

Maria

Dear Maria,

I do understand and I also agree with you! And I made a big mistake in counting on my buyers

I am at this point doing my best to sell the animals, and I am truly in a bad position and I am not asking to reduce the invoice any more and I hope you do not feel it was what I was asking. It is not

I have nothing but the full intentions in paying you! All I have asked is you bear with me. I know it is a hard business. And I have made a agreement with you and David yall are the most honest people I have ever done business with and getting off to a bad start in doing business with you was never my intentions and I do deeply apologize.

Kind Regards

.....,

1. We believe we are absolutely straight in all our business relations. We always stick to the agreements we've made and despite of the problems we might be facing we're always carrying out our responsibilities even if it means we'll encounter losses.

2. According to our correspondence we've never agreed that we'll have to wait our payment until you manage to sell the animals!

We've verbally agreed when you've asked us to ship the animals without any advance payment. You said you will pay for the shipment within 10 days after the animals are delivered because you've already lost some money working with some other African suppliers and you've funds blocked in other shipments from TZ.

3. You've agreed with the price for the shipment!

4. You were supposed to pay for the transportation prior the shipment leaves Dar es Salaam!

5. When the shipment was ready for export you said you have some problems with the funds and in order not to postpone the shipment we've paid for the transportation as well!

6. Now please note – we've had lots of problems with the trappers while collecting the animals for your shipment, but we've never informed you about this as this is not your problem and it shouldn't be! Honestly we do not have any profit from this shipment and now we are only trying to get the money we've put in it!

7. We've got a report from you almost a week after you've received the shipment and still we've reduces the Invoice amount you are supposed to pay for the animals....

8. Generally we've fulfilled all your requests and even more! Until to date we haven't received even 1\$ from you!!! obviously, unlike the other exporters you were complaining about!

9. And now you are explaining us your problems and suggesting us to participate in selling these animals!?

Honestly, we've never had such complications with US customers! Actually we would've never agreed to work with such conditions if you were not an American. For example we had a shipment of Hyenas to Miami around New Year holidays and we already got the full amount of the order in our account.

We believe that in the business relations all parties must carry out their responsibilities. Inevitably we all have our own problems, but they should not concern the other party and our obligations to them!

Therefore please kindly transfer the amount due to our account at your earliest.

**Kind regards,
Maria**

Hi Maria,

Happy New Years!.....

I still have most all the stock! I also am having a problem moving it!

I am doing my best to move it out but have also encountered many problems doing so

All the dealers which made orders with us all landed shipments from Tanzania and at half the cost for most the animals so I can not compete with them till their surplus runs out and I am offering the animals I received from you for what you invoiced to me for It is the best I can do for now.

I am not trying to take your stock and not pay you, I am having some serious set backs do to many issues with the animals, I did not set out to have this kind of problem! And have never had this kind of problem but for the most part it is price I have to sell them for, so like I said I am offering them for what you invoiced them to us for and still many say they can import them for much less but that is neither here nor there I just can not offer the animals any cheaper than them or what they were invoiced to me for.

But if you have anyone who will take the stock you have shipped to us here in the USA we will gladly send it to them.

I will get you paid ASAP and will not make any more orders after.

Please let me know what we can do?

Kind Regards

.....

Hi,

Good to hear that you're getting better. I understand you have some complications, but we have ours as well. We've agreed the general payment to be done 10 days after you receive the shipment and now a lot more time has passed.

Pls do your best to arrange the payment.

Kind regards,

Maria

I am still trying to recoveram getting better but still have some problems.

On the money we are still trying to sell the bulk of the animals most of our buyers have backed out because the animals are in well lets say not what they expected in quality but I think it is because they already bought from someone else. We have sold some animals and are just awaiting payment. This shipment like others who got east African shipments came to close to the holidays

Which people are not spending money and should pick up by the first of the year in about two weeks I am sorry it has not gone as to plan for sales quicker it is usually not like this I just don't know what is going on with selling animals other than people are waiting till after Christmas Please give me some time I know you need your money I am doing my best at this point to take care of this as soon as possible.

Kind Regards

Subject: Re: Importer looking for honest exporter!

To: "African Animals (T) Ltd."

Dear Madam, Mrs. Milusheva

I want to be totally honest with you it is very hard to trust anyone from Tanzania epically in Dar Slam, people there have ripped off lots of honest hard working people here in the USA I know I personally lost a very large amount of money in Tanzania and still have not got any animals and was just 4 days ago ripped off by a guy in Egypt. But I will be wanting to do business with someone honest because I am honest I only want what I order nothing more or less my order are usually large order and I do not have a problem selling the animals also every time someone from another country wants to do business with someone in the USA or Canada there is a Board of inquiry here in the US and Canada to post the name of the company who wants our business and anyone who knows of a good experience or bad will be notified.

So what I am saying if you want honest person to do business with I am willing to work with you but the animals must be shipped up front to us we will advance no money till then when animals arrive we will then send 30% of total invoice and balance within 10 days so please send list with prices

Regards

.....
