

Instructions for the FedEx Packaging Test Application

Please complete the application in its entirety to enable FedEx Packaging Services to accurately choose the correct test procedure for your package.

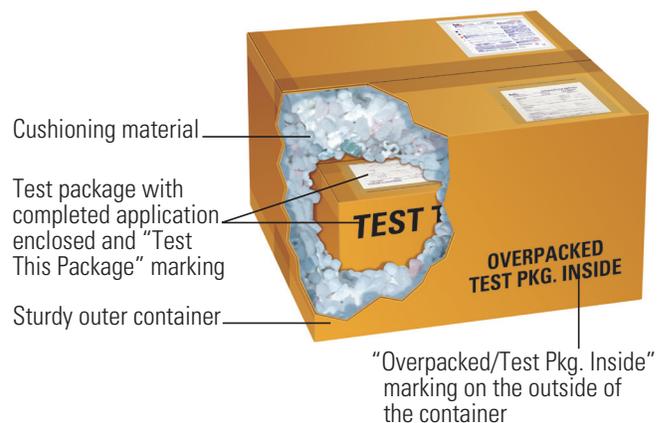

Testing Submission Guidelines

Follow these guidelines for submitting your packaging for testing. An active FedEx account number is required. You and your FedEx account executive should expect testing results via e-mail within 5 to 7 business days from FedEx Packaging Services' receipt of your packaging.

- Complete and sign your application, referencing the name of your FedEx account executive on the form. Please provide an accurate description of the product contents.
- Do not ship hazardous materials/dangerous goods to us to test; instead prepare a sample test package including all the components in the exact weight and configuration you intend to send to the lab, with water or sand in place of the actual hazardous materials/dangerous goods sample. If you cannot replace the hazardous materials/dangerous goods with water or sand, do not send the package to be tested.
- Prepare a sample test package including all the components in the exact configuration you intend to send to your customer.
- Place your completed application, your sample test package labeled "Test This Package" and any necessary cushioning material in a sturdy outer container marked "Overpacked/Test Pkg. Inside."
- Send your shipment to:
FedEx Packaging Services
2828 Business Park Drive
Bldg. H, Suite 500
Memphis, TN 38118

Complimentary Testing and Return Shipping

FedEx Packaging Services will test your packaging at no charge. You simply cover the costs of shipping your test package to FedEx Packaging Services. Then, if you request, we will return your test package free of charge via FedEx Express Saver® or FedEx Ground® service. Of course, you may request return of your packaging via other FedEx® services at your own expense.
